Data Analyst with an MSc in Big Data & Data Science from Northumbria University, London, and hands-on experience in the UK and India. Skilled in Python, SQL, Excel, Tableau, and Power BI for data analysis, visualisation, and dashboard development.

Experienced in data cleaning, EDA, and delivering actionable insights through clear reporting and visualisations from work at Mango Lassi AI and Nikosi Exports. **Google Data Analytics Certified** and pursuing **Microsoft PL-300**. Eligible to work in the UK until December 2028

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Mango Lassi AI, London, UK

Feb 2026 – Present

- Analyzed structured datasets to identify trends, patterns, and key insights that supported strategic business decision-making
- Cleaned, transformed, and validated data using Python (Pandas, NumPy) and SQL to ensure data accuracy and reliability
- Conducted exploratory data analysis (EDA) and developed interactive Power BI dashboards to monitor KPIs and business performance
- Collaborated with cross-functional teams to improve data quality, streamline reporting processes, and deliver actionable insights through visualizations and reports

Data Analyst | Nikosi Exports, India

June 2024 – Feb 2025

- Analyzed sales and operational data to identify business trends
- Built Excel dashboards and automated reports for performance tracking
- Performed data cleaning and validation to improve reporting accuracy
- Delivered insights to support business and operational improvements

TECHNICAL SKILLS

- Python (Pandas, NumPy) • SQL • Power BI • Tableau • Excel (Pivot Tables, VLOOKUP, Dashboards)
- Data Cleaning & Transformation • Exploratory Data Analysis (EDA) • Data Visualization • KPI Reporting
- Jupyter Notebook • PostgreSQL / MySQL

EDUCATION

MSc Big Data & Data Science - Northumbria University, London, UK | May 2025 – May 2026

Bachelor of Computer Applications (BCA)- Bharathiar University, Coimbatore, India | June 2021 – April 2024

PROJECTS

- **Impact of Cost Structure and Debt Strategy on Corporate Profitability** - Analyzed SEC financial data using Python and SQL to identify profitability trends and insights
- **Banking and Financial Risk Analysis using SQL** - Analyzed banking and financial datasets using SQL to identify fraud trends, customer spending patterns, and loan behaviour insights
